Example 3: Accept all sequences which consist of any

number of 1's, and only a **prime** number of consecutive 0's!

$$11011001$$

$$11000011$$

$$1101000000000001$$

$$11 \overbrace{00 \cdots 00}^{1031 \text{ elements}} 11$$
