

Homework Zero
Physics & Mathematics of Sustainable Energy
College of the Atlantic
Due Monday, September 11, 2017

This is a small warm-up assignment. The main goal is for you to start getting used to the WeBWorK system. You can access WeBWorK here: <https://courses1.webwork.maa.org/webwork2/coa-es10341/>. There is also a link to WeBWorK on the bottom of the schedule page on the course website. The assignment to do is called Homework Zero.

If you encounter any problems with WeBWorK, please let me know.

Most assignments will combine WeBWorK and written work, but this warm-up assignment is all online.
